- 1) Fixer les agrafes plates sur le volet (ou panneau de protection bois).
- 2) Positionner le volet sur l'issue (fenêtre, vitrine, porte-vitrée, etc.) à protéger afin de repérer les emplacements des agrafes coudées. Pour faciliter la manutention du volet, utiliser des poignées types persienne ou St Etienne selon le poids du volet.
- 3) Fixer les agrafes coudées en s'assurant qu'une fois le volet positionné, les vis ne soient pas accessibles.
